SUMMARY

Third-year BSc Information Technology student with a solid foundation in systems development, database design, and data structures. Former Junior IT Technician with hands-on experience in networks, servers, and desktop support, including firewall configuration and monitoring tools. On track to graduate in 2026 with a strong academic record, and eager to contribute technical expertise and problem-solving skills to a software engineering role.

EXPERIENCE

ICT-S, Nelspruit — *Junior ICT Technician*

September 2022 - November 2023

- Provide remote and on-site desktop support.
- Maintain daily, weekly, monthly Quest Rapid Recovery backups.
- Assist with managing and monitoring of network infrastructure and appliances
- Manage user accounts and security policies on Active Directory.
- Experience with configuring firewalls, specifically Sophos Firewall appliances
- Configure and troubleshoot VoIP phone and PABX systems.
- Write custom scripts to notify about Windows server events via email.
- Install, configure and maintain Zabbix Network Monitor

Effektus, Nelspruit — *Network Infrastructure Installation Project Lead*

December 2025 - January 2026

- Led an installation of new network section for a large private education institution, including +/- 160 new network points.
- Calculated resource requirements.
- Pulled +/- 6km of network cable from server room to new computer rooms and offices
- Organised server cabinets, and installed and labeled patch panels and cables
